Summary

- Web developer with 2 years of freelancing experience working on Web platforms including HTML, CSS, JS, and React.
- A passionate coder who loves to make web applications, and is eager to learn new technologies.
- I code, I design, I explore. I love to work with new people, and learn from them as well as teach them.
- I like to work with a healthy community and I'm determined to achieve the best out of my work.
- Lastly, I'm a musician by heart, and I love to play guitar and sometimes singing along.

Experience

Mobile Application Developer Intern

Beat The Virus   12/2020 - 06/2021
- Analyzed information to determine, recommend and plan installation of new system and modification of existing system.
- Prepared reports and correspondence concerned project specifications, activities and status.
- Analyzed user needs and software requirements to determine feasibility of design within time and cost constraints.
- Wrote well-designed, testable code.
- Troubleshot minor problems and reported larger technical issues.

Skills

C, Java, Python, HTML5, CSS, React, Git, GitHub

Personal Projects

Personal Portfolio Website (March-2022)

- Github Repo Link - Personal Portfolio
- Live Demo - Personal Portfolio
- A personal portfolio website which has React-JS library as the Front-End and it is a UI/UX website, not focusing on the Backend.
- I have used some CSS animations and effects to make the UI look good, and overall it is a classy personal website.

LinkedIn Clone (Feb-2022)

- Github Repo Link - LinkedIn Clone
- Live Demo - LinkedIn Clone
- A minimal clone of LinkedIn, made using React-JS for the front-end and Firebase powering the backend.
- I've used Redux for managing the application wide state for the User Authentication Process, and there is only Custom Text posting functionality.

Note Keeper (Aug-2020)

- Github Repo Link - Note Keeper
- Live Demo - Note Keeper

- I made a clone of the Google Note Keeping App (Keep Notes) for only the front-end part as I was learning React-JS.
- I used ReactJS, HTML5, CSS3, ES6 and JavaScript.

Education

Bachelor of Computer Applications (BCA)
